MAKES THE STOMACH FEEL FINE

It's a pleasure to seil a medicine when customers come in afterward and tell you how much good it has done

when customers come in afterwardend tell you how much good it has done them.

It uggists everywhere can tell of this experience in their saile of Mi-o-na, the well-known stomach remedy. And that is the reason why they are always glad to sell and recommend Mi-o-na. It does the work and ends all stomach distress just like the Mi-o-na people say it will. As a result of this success most every druggist goes a step further and sells Mi-o-na on a positive guarantee that unless it helps the purchaser he can have his money back. That may seem rash, but customers have ead as onany good words in Mi-o-na's favor that very few packages are likely to be returned.

Anyone who has dyapepsia, whose food does not digest well, and who has to take thought as to what he can eat, and when, can leave 50 cents deposit at any drug store and take home a box of Mi-o-na and if the femely does not regulate his digestion and help his dyapepsia he can withdraw his money.

This shows grast faith in the merit of Mi-o-na. It is really a most unusual medicine and the rapid in rease of saies since it was introduced in Mi Paso shows that it does all that it is chalmed to do-relieves dyapepsia, regulates digestion and enables thowe who use it to eat just what they want with no fear of frouble after. Sold by Kelly & Poliard and any other leading druggist in this vicinity.—Adv.

"As vicar of Him, who is the peaceful King and Prince of Peace, we cannot but be moved by the misfortunes of so many of our children, we cannot but continually raise our hands in supplication to God of Mercy, entreating Him with our whole heart that He may deirn in Ris power to put an end to this sangulnary conflict.

"Prepare for that peace which the whole of humanity ardently wishes for that is, a peace that is just and lasting—not advantageous to one alone of the helligerent parties.

"The way which can surely lead to this happy result is that which has already been tried and found satisfactory in similar circumstances and of which we made mention in our last letter. That is, an exchange of ideas, do it direct or indirect, bused upon good will and calm deliberation and set forth with clearness, duly recognizing the appirations of all, eliminating the unjust and impossible and taking into account with equal measure, what is just and possible.

"Concessions here Necessary."

"Naturally as in all human controversies which must be settled through the efforts of the contending parties, that it is absolutely necessary that concessions he made upon some point by both parties, that some of the hoped for advantages must be remounced, and that each must take with good grace some concession, even at the cost of sacrifice, so as not to assume before God and man the enormous responsibility for the continuance of this shedding of blood, of which history records no counterpart and which if prolonged further, might mean for Europe the beginning of the decadence from the degree of urosperous civilization to which the Christian religion has raised her.

Then I would be legitimately protecting my frontiers and it would not involve Greece in further risks. More, I cannot do.

not do.

Entente's Demninds Are Too Much.
The entente's demand is too much.
They try to drive Greece out of neutrality; they come into Greek territory and waters, as though these were theirs. At Nautila they destroyed tanks of petroleum on the excuse that they might be used by German submarines. They stop Greek ships, they ruin Greek commerce; as they have done with American ships, too; they want to seize our railways, and now they demand that we take away the troops guarding the Greek frontiers, leaving my country open to invasion or any lawless incursion.

"I will not do it. I am willing to discuss reasonably any fair proposals. But two things I will not concede: Greece shall not be forced out of her neutrality. Greece will maintain her sovereignty and her sovereign right to protect herself at need."

May Be Ferced to Demobilize,
"And if that is not satisfactory—if coercive measures are used by the entente powers!" the king was asked.

"We shall protest to the whole world that our sovereign rights are violated. We shall protest to the whole world that our sovereign rights are violated. We shall protest to the whole world that our sovereign rights are violated. We shall protest to the whole world that our sovereign rights are violated. We shall protest to the whole world that our sovereign rights are violated. We shall resist passively as long as we humanly can."
